'Beautiful, Understated'
'Elegant' Word for Jackie,
Says Kennedy Couturier

By LOIS FEGAN
Jersey Journal Women's Editor

Beautiful, elegant, understated' is how her couturier feels about Mrs. John F Kennedy, the First Lady-elect.

This was the answer of Neale Canti, when members of the nation's fashion writers pressed him into giving a three-word description of his new client.

CANTIN, in an unprecedented press conference yesterday which replaced the scheduled showing of his regular spring collection at the New York Couture group's semi-annual preview, described how he came to be selected and what he plans to do as the only designer for Mrs. Kennedy.

He scored the "bad taste" shown by stalkers who display effigies and mannequins of the President-elect and his black-haired young wife.

"I think we should protect our President and show him the respect not to use him for commercial purposes," Canti said.

Three sketches of Kennedy couture, which Canti released to newspapers today give the clue to the question of whether Jackie would continue to insist upon the understated, chic style which has been her trademark, or whether Canti would impress on her the sexy, form-fitting look of his past collections.

Jackie is in control.

Georgia Awaits Ruling

Federal Judge To Decide on Negro Students

ATHENS, Ga. (UPI) - Faculty, church and religious groups urged today that two Negro students be allowed to attend the University of Georgia until the state and federal governments complete an investigation of racial relations that resulted in the Negroes' suspension.

Police, state highway patrolmen and university officials strengthened their defenses, however, in expectation of a new surge of rioting should the two Negroes be ordered back by a federal judge in Macon, Ga., this afternoon.

Rumors swept the campus Thursday night that demonstrations were being planned, but actually the campus was unusually quiet.

The Negroes, Charlayne Hunter, 18, and Hamilton Holmes, 19, both of Atlanta, were taken out of the university by highway patrolman early Thursday after a riot that left five policemen hurt and windows smashed in the dormitory where Miss Hunter lived.

ATHENS, Ga. (UPI)—Faculty, civic and religious groups urged today that two Negro students return to class at the University of Georgia until the state and federal governments complete an investigation of racial rioting that resulted in the Negroes' suspension.

3 Arrested in J. C. Studio

**Surprise! Two Cameramen Shooting Nudes Were Cops**

There were a couple of steady-paying customers at a nude art-photo studio Jersey City police said was being run at 148 Summit Ave.

The customers were Sgt. William Drews and Det. John Zadroga, who take their photos for the police.

---

**DREW AND ZADROGA**, with two other policemen, closed the apartment-studio last night and arrested three persons.

Leo Sobotta, 33, and his attractive wife, Lois, 23, both of the Summit Avenue apartment, and Barbara Earle, 22, of Newark, who shared modeling duties with Mrs. Soppota, were booked. Sobotta was charged with aiding and abetting indecency, his wife with indecency, and Miss Earle as a material witness.

Police, who also confiscated a number of "girlie" books and a quantity of movie and still film, said Drews and Zadroga had taken nude photos while posing as customers at the studio.

---

**THE STUDIO** was opened last month, police said, when the trio arrived in Jersey City and placed advertisements offering amateur photographers the chance to take "art" photos.

Drews and Zadroga answered the advertisement and, using their own cameras, took photos for evidence.

At one session, there were four police photographers gathering evidence — at Sobotta's going rate of from $11 to $15 per man, police said. The higher the rate, the artier the photos, according to police.

---

**DREW AND ZADROGA**, along with Dets. Raymond Kohl and William Outwater, paid their final visit last night, closing up the studio.

The Sobotta couple's four-year-old daughter, who was in the apartment at the time of the raid, was detained in the Medical Center as a boarder.

**Bowery Boys Hit a Snag In Plan for Limousine Tour**

Three unshaven, disheveled Bowery denizens didn't appear to be well fitted for the sleek, black 1960 limousine they were driving up to the Lincoln Tunnel toll booth in Weehawken.

One, for instance, had shoes that didn't match. The second was wearing a light spring topcoat in winter and the driver had four layers of jackets buttoned across the chest and a battered gray fedora pulled over his head.

---

**SURE, THEY** had the 50 cent toll. In fact their total assets came to a lot more — $2.40 all told.

Somehow, a Port Authority patrolman figured quickly, the appearance of the sleek limousine and the three passengers didn't quite go together. He was further convinced when they had no license.
At Weehawken headquarters the driver, Marvin L. Treadway, 34, and his passengers, Carl Baker Jr., 34, and Lee White, 51, told their story:
The limousine was part of a four-car cortege waiting outside St. Patrick's old cathedral at Mott and Prince Streets. Also parked there were a hearse, flower car and another passenger limousine.

AS THE DRIVERS went inside to assist at the funeral, the three Boweryites noticed that the keys were in the sleek seven-passenger sedan.

Chicago? "Why not," said the men as Treadway slipped behind the wheel. Their assets of $2.40, they figured, would take care of the Lincoln Tunnel toll and gasoline on the way.

Hails Plan For Aged Medical Aid

A White House Conference on the Aging recommendation that medical needs of the aged be met through social security legislation was hailed today by Dr. Benedict Duffy as “very encouraging news” for Hudson County.

Dr. Duffy, director of Seton Hall’s Department of Preventive Medicine and Community Health, attended the conference which closed yesterday. He led in the drive for adoption of the recommendation.

“This is something for which Seton Hall has been striving for some time,” Dr. Duffy said.

“Hudson County has a higher percentage of aged, indigent persons in need of medical care than any county in the state,” the director said.

“Such legislation would insure each broad medical coverage, including home care,” Dr. Duffy pointed out.

Space Bomb Called Chief Peril to U.S.

By LYLE C. WILSON

WASHINGTON (UPI) — A military friend of mine whose name was in headlines during World War II was thinking out loud the other evening. This is what he thought:

“The greatest danger our country faces today flows from the following possibilities:

“Science and technology now have reached a state which makes it possible to place in space weapons which can control the people of the earth. Such weapons can be developed for an expenditure of a few billions of dollars and can be available by 1970 to 1973.

‘The Russians’ undoubtedly are aware of this possibility.

“They or we may soon propose that space be reserved for peaceful purposes and that no weapons be placed in orbit. If such an agreement were made, we would keep it and no funds would be appropriated for space weapons. The Russians can be expected to go full out, despite any treaty or agreement, to develop such weapons.

“Thus, in 1970 or thereabouts people of the United States would be defenseless against Russian space weapons. Under such conditions, the United States would be forced to surrender.

“The antidote to such catastrophe is to proceed with all speed, energy and effort to develop optimum weapons in space. Equal priority must be given to the earliest development of defense systems against space weapons.

Loss of Starter Status Faces Yogi for First Time

By JACK LANG

For the first time since he made the Yankee varsity in 1947 Yogi Berra will go to spring training faced with the loss of his status as a regular.

No longer is he the No. 1 catcher nor is he regarded as the No. 1 left field candidate. Those jobs at the moment belong to Elston Howard and Hector Lopez respectively.

WHERE WILL Yogi play? “Well,” said manager Ralph Houk at Berra’s contract signing ceremonies yesterday, “he’s listed on the roster as a catcher but I plan to use him in the outfield too.

“My catching has to be some of my protection. I don’t have Bob Cerv or Dale Long anymore. Berra and Howard both can play the outfield and Elly can also play first. In fact he’s going to have to be the man behind Skowron if I don’t come up with anyone else.”
The general impression is that Yogi will become the club’s No. 1 handyman and he isn’t exactly adverse to the role.

“I FIGURE playing in the outfield I’ll add a year or two to my career,” he said with typical Berra nonchalance.

Yogi will however, be paid handsomely for whatever he contributes to the Yankee cause. He was given a slight raise (“real slight” Yogi grinned) over his estimated $50,000 pact of last year.

When asked if he had any particular ambitions, Yogi remarked that he’d like to reach the 2,000 hit total. He needs only 54.

ENJOYING THE COLD — This contingent from the Twin Hickory Ski Club of New Jersey enjoy a period of rest after a difficult run down the slope. Left to right are Bob Lindby of Kearny, Sally Marshall of Jersey City, Ellen Henderson of Bayonne, Joan Ellis of Jersey City and Paul Bessey of New Brunswick.
Washington is far more vigorous about this nomination than it was in behalf of Bernard Shanley, who left President Eisenhower's staff to seek a Senate nomination in 1958. The friendly endorsements of Shanley then did not have the businesslike air of the current endorsements of Mitchell.

New Jersey is a prize the national Republican leadership would like to have as it begins the long road back to power. Whether the Mitchell drive will be any more successful than Shanley's it is too soon to tell. Shanley could not keep other Republicans from contesting the nomination and he lost it.

Can the desires of the national leadership to have a close associate of President Eisenhower recapture Trenton for the party make Senators Jones, Dumont and Sandman step aside?
