N. J. Road Toll Soars; National Total Down

398 Die In Auto Accidents
Lowest Figure Since 1954

By United Press International
American motorists, driving with more care over better highways than ever before, struggled against deadly Labor Day weekend traffic with fewer than 400 fatalities.

The grim toll was the lowest for the end-of-summer holiday since 1934.

New Jersey, however, tied for fifth place in the nation as its toll soared past expectations. With local authorities in several states still compiling final totals, a United Press International tally showed 356 motorists and pedestrian deaths during the three-day weekend.

Deaths from other accidental causes between 6 p.m. (local time) and 6 a.m. the following day stood at 258.

Boy Blinded at 10 Bests Handicap

By J. W. BRADSHAW

Denis Petrucci was always a proud and patient youngster. Five months of blindness has not changed that.

The slight, blond 10-year-old now sees only shadows and often flickering explosions of light. "It's like being always in the dark," he says, "with sometimes a little bit of light far ahead."

HE LOST HIS sight suddenly last March 16. While sitting at his desk in Jersey City's School 11, drawing posters, he went swiftly, painfully blind.

He said: "It just happened. All of a sudden I couldn't see the lines. It just went dark and they took me to see the principal."

It wasn't the first time Denis had been taken to see the principal. He had always been nearsighted and had often complained of not being able to see the blackboard — sometimes justifiably, sometimes to gain attention — so that his teachers assumed this was a prank.

But it wasn't.

DENIS'S PARENTS, Mr. and Mrs. Frank Petrucci of 2103 Summit Ave. consulted several doctors, coming away each time with the same verdict — the case was hopeless. The boy would never see again. Doctors attributed his blindness to a bilateral detachment of the retina. There have been only three other cases like it in the country and it has never happened to a child before.

Denis returned to a home he would never see again. He was tense and irritable. "At first, he was confused. He didn't know why he couldn't see things," his mother, Elizabeth, said. He became more sensitive to objects and people and would sometimes cry, not knowing what to do."

"We didn't know what to do ourselves," she said. "We babied him in the beginning until he began demanding too much attention.

"We learned that it was not fair to pamper him. His greatest difficulty was learning to overcome his remoteness; so we treated him like his brothers and sisters. He was scolded as much as anyone — more because he always got into more trouble. If you treat him the same as anyone else, he's able to accept it more easily."

DENIS STILL feels the full weight of his affliction. But he had reacted to it with a bold resilience. He retains his pride and enthusiasm.

"You know, I won a prize for swimming this summer at camp," he said. "I was the only one."

He continues to play in the schoolyard every day with the other children. Passers-by are unaware of his blindness. He climbs the playground fence, fights with his sister, does many of the same things any other boy does.

He has always had a great belief in himself. He told his mother during his hospitalization that he wanted to become a doctor.

He felt it might enable him to discover the causes of his own blindness, and thereby help prevent it in others.

THE YOUNG BOY has shown great courage and patience these five months. But the confused and blind loneliness is always in his mind. He still remembers what it was like to see.

"He's only a kid," said his mother. "Their sight means so much to them. He's only 10. He hasn't even seen anything of life."
Slit Skirts Unfair?

LONDON (UPI) — Eleven oriental girls today offered an olive branch to miffed British airline stewardesses who complained that the slit skirt gives Asian females unfair advantage.

"We only want to be friendly," said Eika Yoneya, a 21-year-old Japanese girl who started a British Overseas Airways Corp. training course for stewardesses, with 10 other Asians.

What irked the British girls was that they must wear the standard tailored uniform, while the oriental girls are allowed to wear their native cheongungs and kimonas.

Integration At a Glance

By United Press International

LITTLE ROCK — Forty-eight Negroes enter five schools in city where federal troops once enforced desegregation order.

ATLANTA — Nine Negroes begin fourth day of integrated classes. Ku Klux Klan rally in City Park put under police watch.

NEW ORLEANS — Police keep sharp watch on registration day activities at six schools marked for integration.

Parents Want Children Moved

NEW YORK (UPI) — A group of Negro parent was expected to attempt today to have their children transferred from a predominantly Negro school in their neighborhood to a school in another neighborhood.

The group said it was not satisfied with the school its children must attend while awaiting completion of a new neighborhood school.

School officials indicated the transfers would not be approved.
It Isn't A Boom, but It's Good

WASHINGTON (UPI) — Americans went back to their workaday routine today after a long Labor Day weekend amid prospects the economy is expanding briskly. But three important question marks hung over the economic scene.

The usual fall business upturn was expected to continue through 1962, creating job opportunities for some of the 4.5 million unemployed. Tax receipts were expected to soar, helping offset increased defense spending.

Manville Ill, He's in 'Fair' Condition

NEW YORK (UPI) — Much married asbestos heir Tommy Manville is in fair condition at Doctors Hospital, a spokesman said today.

Manville, 66, was hospitalized six days ago, his 11th wife announced yesterday. One of the attending physicians reported Manville is suffering from a blood infection.

MRS. MANVILLE, a 21-year-old ex-waitress, said her husband had been ill for the past eight weeks, running a high fever. Nineteen doctors have treated Manville, or have been called in as consultants, she said.

Manville, who lives on an estate in Chappaqua, N.Y., was taken to a White Plains hospital several weeks ago as a result of the fevers, Mrs. Manville said. An ambulance carried him to Doctors Hospital last week.

MANVILLE MARRIED for the first time at the age of 17. He's been married 13 times to 11 wives, having remarried two.

He met the current Mrs. Manville, the former Christina Erdlen, who was born in West Germany, while she was working in a White Plains restaurant. They were married Jan. 11, 1960.

New Hospital Executive 'Won't Rock Boat'

Steady as she goes.
That's the axiom Paul J. Hanly will apply as he takes over as acting superintendent of Pollak Hospital, Jersey City.

As proof that he doesn't intend to "rock the boat," Hanly, a World War II coast guardsman made a quiet and methodical tour of Pollak Hospital today while most of his workers were racing to the beaches.

"IT WAS a lot easier that way," said Hanly, 47, the son-in-law of Hudson County Democratic leader John V. Kenny.

"I had the chance to go through the building without meeting too many of the workers and hearing gripes. Now I have a knowledge of the building for any future inspection tours," he said.

Hanly, who rose from a guard to deputy-warden of the Hudson County Penitentiary in 23 years, said however he will apply the same tight reins to the hospital administration which worked so well at the prison.

Appointed to the post of acting superintendent by the Board of Freeholders Thursday, Hanly said he will work toward improving the hospital with the aid of federal and state funds. He said he has already started by making some connections in Washington for U.S. aid to expand the upper floors of the hospital.

A native of Jersey City, Hanly returned from the Coast Guard in 1945 and attended John Marshall College in Journal Square. County Prosecutor Lawrence A. Whipple was one of his classmates.

Hanly married Catherine Kenny in 1938 and has three children, John, 22, Margo, 20 and Paul, 10. One of his favorite pastimes is reading and applying do-it-yourself kits around his summer home in Deal and his Jersey City residence, 131 Kensington Ave.

For sporting activities such as handball and swimming Hanly often goes to the New York Athletic Club. He is also a regular churchgoer at St. Aloysius Roman Catholic Church.

PAUL J. HANLY

"A DAY'S PAY for a day's work," is the message he will convey to the workers at the hospital.
Church Holds Sports Night

Football coaches at St. Peter's Prep, Snyder, Ferris, Lincoln and Dickinson High Schools will be guests at the sports night of the Holy Name Society of St. Paul's Roman Catholic Church, Jersey City, Sept. 12 in the parish school hall, Old Bergen Road.

Other guests will be the pastor, Msgr. Leo L. Mahoney, former Judge William Timney, chairman for the recent archdiocesan high school drive which saw St. Paul's attain over $390,000 to lead the archdiocese; Harold J. Ruvoldt, assistant county prosecutor and the Rev. John G. Hanley, society spiritual director, who will speak.

St. Peter's Set to Open

The academic year at St. Peter's Prep begins tomorrow with the welcoming of 275 freshmen students to the downtown Jersey City high school.

A three-day orientation and spiritual retreat program has been planned for the boys, who represent 56 north and central Jersey communities.

The Rev. Francis J. Shalloe, S.J., student counselor, will direct the spiritual exercises, with the Rev. Joseph Browne, S.J., newly-appointed principal, leading the orientation sessions.

Classroom work for freshmen and upperclassmen will commence on Monday, Father Browne announced. He also set Sept. 15 as the date of the traditional mass of the Holy Spirit, the Red Mass.
It's what's up front that counts

FILTER-BLEND, up front, ahead of any white, modern filter, is what makes Winston so easy on the taste. Good taste and flavor begin up ahead of any filter. That's why Winston gives you It's what's up front. This new combination of mild flavorful tobacco is specially selected and specially processed for good filter smoking. That's the secret of Winston's famous taste. Yes, thanks to Winston, Winston is America's best-selling filter cigarette. Your first pack will convince you. Smoke Winston.

Winston tastes good-like a cigarette should!
Hollywood

Story of Gen. Patton Will Be Put on Film

By LOUELLA O. PARSONS

HOLLYWOOD — The long sought after story of General George S. (‘Blood and Guts’) Patton Jr. sought by movie producers for 15 years since his death at last becomes a reality.

20th Century Fox has received a priority from the Department of Defense and the United States Army to film the story saga of the fiery general as famed for his temper as for his brilliant military mind. Peter Levathes, head of 20th, has turned over the production to General Frank McCarthy. No one could do a better job. Frank was secretary to General George C. Marshall during World War II and made many liaison visits to General Patton’s headquarters during the war.

NOW A BRIGADIER GENERAL in the Army Reserve, and also a long time executive at 20th, Frank has signed Robert S. Allen to write the profile treatment of General Patton as a basis for the screen play. Allen wrote “Lucky Forward,” the story of Patton’s drive across Europe.

A tip of the topper to wonderful Jane Darwell, now in her 80s and just getting over a broken ankle, who sends word with her typical sense of humor: “I’m going to have to be made up to look older for my part in the new “Real McCoy” TV shows because I play a woman 100 years old!” That’s the spirit I like to hear from the gals, Jane.”

Dempsey Remembers 'Merciful Knockout'

By JACK CUDDY

Chatting about the holiday weekend, Jack Dempsey disclosed today that Labor Day always makes him feel a little sad because of the merciful knockout he had to deliver to a sick friend 41 years ago.

"It happened on Labor Day, 1920," Jack recalled, while having coffee in his Broadway restaurant. "I knocked out my pal, Billy Miske, as quickly as I could — with a left hook to the chin in the third round at Benton Harbor, Mich. — so I wouldn't have to hurt him."

JACK EMPHASIZED that the Miske match was one he hadn't wanted to take because pal Billy of St. Paul, Minn., had recently started a comeback after having been hospitalized more than a year with Bright's Disease.

"Before his illness and before I had won the title," Jack continued, "Miske and I had fought twice in no-decision affairs that had gone the distance. He was a really fine boxer; but more than that, he was a grand guy and I liked him very much."

Billy was 26 at the time, Jack recalled, and he looked like a college boy — with his brown, crew-cut hair; but he was gradually dying. Moreover, his costly illness — coupled with his lay-off from the ring — had left him "broke," with a wife and children on his hands. He needed money in a hurry.
Outfield Gems Help LiftLead

Top Senators
In Twin Bill

By JACK LANG

Now that Yogi Berra is making
like Joe DiMaggio in the outfield,
Isn't it about time the Tigers
conceded?

Twice over the weekend Yogi,
who spent most of his major
league life behind the plate, pulled
defensive gems in the outfield to
help the Yankees beef up their
lead in what only a few days ago
was a tight pennant race.

A GREAT THROW from the
outfield snuffed out a Tiger rally
in Friday night's game and yes-
terday the Yogi men went into
left as a defensive replacement
(of all things) in the eighth in-
nings of the second game and
pulled off a catch that enabled
the Yankees to sweep a pair from
the Senators, 5-3 and 3-2.

There were two out, a man on
and the Yanks leading by a slim
one run margin when Bob John-
son lined a shot to right in the
ninth inning that had home run
written all over it.

But with all the aplomb of a
DiMaggio, Mantle or Maris, Berra
raced back, stuck up his gloved
hand and plucked the line drive
out of the seats.

"IT WAS ONE helluva catch,"
beamed a relieved Ralph Houk.
"I don't say it was the kind of
catch Yogi is going to make every
day but he made it today and
that's what counts."

What also counts is that the
Yanks won both games and boost-
ed their league lead to 6 games—
their biggest bulge of the season.

They did it, too, without a bit
of help from the M & M squad, if
you discount the six fly balls Rog-
er Maris caught in center field
on the long and muggy afternoon.

ROGER WENT to bat eight
times in the two games and only
on his eighth trip did he succeed
in getting a ball out of the in-
field. He hit only one foul into
the right field stands all after-
noon and that wasn't even close
to being a homer.

The pitchers have begun to
work differently on Rog and he's
getting few pitches he can pull.
Four of the eight times he hit
the ball yesterday, it wound up on
the left side of second base.

"But it's tough and I'm tired. I
just can't wait for the season to
end," Roger said.

THEN ROG LEVELLED a mild
blast at the fickle Yankee Sta-
dium customers who cheer him
when he hits a homer and boo
him when he doesn't.
ROGER WENT to bat eight times in the two games and only on his eighth trip did he succeed in getting a ball out of the infield. He hit only one foul into the right field stands all afternoon and that wasn't even close to being a homer.

The pitchers have begun to work differently on Rog and he's getting few pitches he can pull. Four of the eight times he hit the ball yesterday, it wound up on the left side of second base.

"But it's touch and I'm tired. I just can't wait for the season to end," Roger said.

--

THEN ROG LEVELLED a mild blast at the fickle Yankee Stadium customers who cheer him when he hits a homer and boo him when he doesn't.

"Those frontrunners," he sneered. "You get just a few hits and they're all against you."

In right field, where he normally plays, there is a regular band of fans who jeer him all the time and shout obscenities. The same fans must have moved over into the bleachers yesterday because Maris played center field in Mantle's absence and was subjected to similar insults.

--

IN GOING HOMERLESS in the two games, Maris' edge over the Ruth record narrowed down to five games.

Mantle, who was unable to play except for a brief defensive appearance in the final inning of the first game, now is even with Ruth's record after 138 games.

Both boys better get busy if they're going to catch the Ruth ghost because in 1927 when he hit 60 homers, Ruth walloped one in each of his 139th and 139th games.
Dallas Open

Did Palmer Beat Self Or Lose to Stewart?

By ED FITE

DALLAS, Tex. (UPI)—Earl Stewart Jr., the first bona fide host pro ever to win a PGA tour stop, said today he wasn’t sure whether he beat Arnold Palmer for the $4,300 Dallas Open crown or whether Palmer beat himself.

The scoreboard showed that the 153-pound red-haired Texan toured his own Oak Cliff County Club’s par 35-35—70 layout in two-under-par 278 figures for the 72 holes, while Palmer wound up with a 279 and tied for second with fast-closing Gay Brewer of Crystal River, Fla., and Doug Sanders of Ojai, Calif.

THAT RUNNERUP deadlock was worth $2,233.34 to the trio and pared Palmer’s deficit in his battle for top money winnings with Gary Player to $3,238.52. Player, who finished in a seven-way tie for 13th here to win $714.28, now has official money winnings of $61,115.45 to $57,732.93 for Palmer.

Sanders, who shot the tournament’s hottest round with his closing 31-35—66, boosted his third-place standings to $50,913.24—far ahead of the rest of the money winning field.
Color changes come to the countryside, and the scarlet of woodbine and the wine-red of sumac candles are signs of the approaching equinox. Corn shocks march across the fields and piles of golden pumpkins are heaped against the south sides of weathered barns.

September is a month of good flavor. You can smell the ripening apples and the frosted wild grapes, and the fragrance of rich garden soil is pleasantly pungent in the nostrils. Wildlife is readying for the cold months and each day flocks of birds wing through on the way to the southland.

The sun sinks nearly west these days and hours of light and hours of darkness are about equal. Year is sliding down the slope to the nadir, but for many the weeks just ahead are the best part of the year. As one savors their goodness, he can store a harvest in the heart to help carry him through the time of cold and ice.
Suddenly, the No. 1 leader of the Communist world said: “Let’s go for a swim and then have dinner. We can swim in the pool where McCloy (Kennedy’s disarmament adviser) and I swam or we can go in the sea.”

—

WE CHOSE THE SEA. En route to the bathhouse, Nikita Khrushchev explained that he couldn’t swim very well. “The only water I knew as a boy was surface water in the mines of the Ukraine. So I wear a belt.”

He offered his guests a belt. Mrs. Pearson is a good swimmer and diplomatically I did not tell the chairman of the Supreme Soviet Council that I had been captain of the swimming team in college.

In the bathhouse, Khrushchev pointed to a phone beside a lounge. “A direct line to the White House,” he said, joking and referring to the fact that a magazine had urged a direct line between Kennedy and Khrushchev in order to head off sudden nuclear war.

The water was delightful but Khrushchev stayed in until I was chilly. I couldn’t admit that a sometime expert capitalist swimmer could not outlast a Communist amateur, however, so I remained until Khrushchev got out. As he got out, he took off the little tube around his waist and said: “You see I can swim without a tube too.” Then he gave a brief demonstration by paddling around the dock for a minute or two.

—

WASHINGTON — A lot of people have asked me what it was like to spend some time with Premier Khrushchev at his summer home, what we ate for dinner, what his house was like, whether Mrs. Khrushchev was there, and all the other details. The interview with Khrushchev started beside the swimming pool, and continued from 4 o’clock until 8, by which time the sun had started to go down over the Black Sea, and its waters, usually very blue in this part of the Soviet Republic of Georgia, had become black indeed.
